1. Nature of the tasks

The mission of Unit B.2 is to ensure an appropriate level of investment in transport, through a mix of instruments such as the Connecting Europe Facility (CEF), the Recovery and Resilience Facility (RRF), the regional funds and the InvestEU, combined with advisory services and regulatory measures within the Green Deal - Sustainable Europe Investment Plan.

The Commission is looking for a SNE who would be entrusted with two main tasks:

- 1) In December 2022, the European Parliament and the Council agreed on the Commission proposal to establish a Social Climate Fund as part of the [Fit for 55](#) package. The objective of the Fund is to support vulnerable households, vulnerable micro-enterprises and vulnerable transport users among others by granting improved access to zero- and low-emission mobility and transport. The tasks for the SNE would include to support the setting up of the fund in close cooperation with relevant Directorate Generals (CLIMA, EMPL, ...), to coordinate the input from DG MOVE in the implementation of the fund, to contribute to the preparation of guidance material, etc.
- 2) The [Innovation Fund](#) has been set up to use revenues from the Emission Trading Scheme in order to provide support for the commercial demonstration of innovative low-carbon technologies. Thereby, the fund is aiming to bring to the market industrial solutions to decarbonise Europe and support its transition to climate neutrality. The tasks for the SNE would be to monitor and to contribute to the implementation of the fund, ensuring a high uptake in the field of transport, as well as coordination with other funding programmes and instruments (like the Connecting Europe Facility, InvestEU, ...).

In addition to these main tasks, the SNE would be in particular following several Member States as well as one of the Core Network Corridors set up under the TEN-T regulation.

¹ These mentions are given on an indicative basis only (Art.4 of the SNE Decision).
